Mr. Saifudin, S.ST, M.Tr.ID

Delegation, Indonesian Society of Radiographers (ISR)

October 3, 2024

Dear Delegation of ISR,

The 2024 TAMRT International Forum and 11th Asia Radiotherapy Symposium (ARTS) will be held on November 9th at Taipei Veterans General Hospital, Taipei City, Taiwan. The theme of this year is "Precision radiation therapy transcends the scope of traditional radiotherapy into a new era".

Radiographers or radiological technologists have always put patient safety and provide high-end medical image quality and radiation therapy as their top priority.

With the rapid advancement of biomedical imaging, medical instruments and technologies, the global cancer treatment field continues to develop, including the research and application of targeted therapy, immunotherapy, precision medicine and other directions. The increasing application of big data and artificial intelligence will greatly improve the efficiency and accuracy of radiotherapy. In order to strengthen the application of radiological medical imaging and precision radiation therapy, radiographers or radiological technologists should play a more important role and positively to catch up with this change in global perspective.

On behalf of the organizing committee, I am pleased to invite you to be our distinguished guest at this forum to share your expertise. Your contribution to this forum would definitely benefit all the participants.

As our invited guest we will provide 1 room of 3 nights for your stay in Taiwan (check-in date: Nov. 8th check-out date: Nov. 11th). In addition, your registration fee will be waived, welcome party, visits and tour, and gala dinner will be included as well. Your presence and guidance are respected.

There will be around 3,000 participants including our government agencies such as the Ministry of Health and Welfare, Executive Yuan, Ministry of Foreign Affairs, Nuclear Safety Commission, and exterior and interior invited speakers, as well as scholars and experts will attend this event.

Yours sincerely,

Chun-Yuan Tu

President of TAMRT
